NORTHLINE SYSTEMS
Travel Policy
Effective date: 15 January 2026
Document owner: Finance
Classification: Internal

1. Purpose
This policy explains when Northline Systems employees may travel, how travel is approved, and which expenses are reimbursable.

2. Approval
Domestic travel requires line manager approval in the Travel Desk before tickets are booked. International travel requires director approval and a completed risk checklist. Travel booked without the required approval is not reimbursed.

3. Booking
Air travel inside the same continent should be economy class. Business class is allowed only for flights longer than 8 hours and only with director approval. Rail travel should use standard class. Employees must book refundable or changeable fares when meetings are not confirmed.

4. Lodging
Hotel rates should not exceed 180 USD per night in domestic cities or 250 USD per night internationally unless a cheaper safe option is unavailable. Airbnb and unlicensed lodging are not permitted for business travel.

5. Per diem
The domestic per diem for meals and incidentals is 75 USD per full travel day. The international per diem is 120 USD per full travel day. Per diem is halved for travel days under 6 hours. Alcohol is not reimbursable.

6. Ground transport
Airport transfers should use licensed taxis or the company-approved ride account. Rental cars require manager approval and are limited to compact or midsize vehicles. Traffic fines are the employee's responsibility.

7. Combining personal travel
Personal leisure days may be added to a business trip if there is no increase in airfare paid by Northline. Personal hotel nights and meals are not reimbursable.

8. Expense submission
Expense reports are due within 10 working days after return. Receipts are required for any item over 15 USD. Late reports may delay reimbursement to the next monthly cycle.

9. Safety
Employees must share their itinerary with their manager. For international trips, employees enroll in the travel advisory mailing list at least 5 days before departure.
